AJAY

Full-Stack Developer

ajaykere663@gmail.com | +91 6362877827 | linkedin.com/in/ajay-kere | portfolio-ajay-iota.vercel.app

PROFESSIONAL SUMMARY

Full-Stack Developer with 3+ years of experience designing, building, and deploying scalable web and mobile applications using React.js, Node.js, Express.js, MongoDB, Java, and Spring Boot. Proven track record implementing secure JWT-based authentication and role-based authorization, end-to-end Razorpay payment gateway integrations, and Redis caching for high-performance data access. Skilled in Redux Toolkit and createAsyncThunk for global state management, React.memo for frontend performance optimization, and building fully responsive, production-grade UI layouts. Experienced with Docker for containerizing and deploying applications, Spring Boot Microservices Architecture (API Gateway, Eureka Service Discovery, OpenFeign), and React Native (Expo) for cross-platform mobile development, consistently delivering efficient, maintainable, and user-centric software solutions.

PROFESSIONAL EXPERIENCE

Software Engineer (Full-Stack Developer) — Halzon Services Private Limited*(Sep 2023 – Sep 2025)*

Project: **Eyewear E-Commerce Platform | Full-Stack Developer**

- Developed and maintained RESTful APIs using Java, Spring Boot, and Spring Data JPA for product catalog, customer management, shopping cart, order processing, and eyewear inventory modules.
- Designed and implemented modular backend architecture with controller, service, and repository layers, improving code maintainability, scalability, and separation of concerns.
- Integrated MySQL for relational data management, implementing entity relationships, database queries, and CRUD operations to support product listings, customer information, and order transactions.
- Implemented secure authentication and authorization using Spring Security and JWT, protecting customer accounts and restricting access to authorized application features.
- Developed responsive and interactive frontend interfaces using React.js, JavaScript, HTML, CSS, and Tailwind CSS, integrating backend APIs for product browsing, eyewear selection, cart management, and order placement.
- Collaborated across frontend and backend development to define API contracts, handle validation and error responses, debug integration issues, and deliver a reliable end-to-end e-commerce experience.

Software Developer (Full-Stack Developer) — RevAppayya IT Services Private Limited*(Oct 2025 – Present)*

Project : RITS Billing Suite

- Developed backend APIs for billing, invoice generation, transaction processing, customer accounts, and financial reporting using Node.js, Express.js, and MongoDB.
- Implemented JWT-based authentication and role-based authorization to secure application endpoints and support multiple user roles.
- Integrated Razorpay payment processing across frontend and backend, including transaction verification and payment workflow handling.
- Implemented Redis caching for frequently accessed product data to improve backend read performance. *(Retain the 29% improvement only if you have validated measurements.)*
- Developed responsive React.js interfaces and implemented global state management using Redux Toolkit and createAsyncThunk for API-driven application workflows.
- Containerized application components using Docker and used Git/GitHub for version control and collaborative development.

Project : Restaurant Management Suite

- Developed backend functionality for order processing, menu and category management, inventory tracking, and product data operations.
- Implemented JWT-based authentication and integrated Razorpay for online payment processing and transaction handling.
- Optimized database queries, pagination, and category-based filtering to improve data retrieval for large product catalogs.
- Built responsive web interfaces and extended core application functionality to Android using React Native (Expo).

- Tested REST API endpoints using Postman and containerized backend services with Docker to support consistent development and deployment environments.

Web Developer Intern — Bissbee *(April 2023 – July 2023)*

- Developed responsive and interactive web applications using React.js, JavaScript, and modern UI/UX practices, increasing user engagement by 35%.
- Built and launched Tryshoes.in, a live e-commerce web application, from design through deployment.

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript, SQL, HTML5, CSS3
- **Frontend:** React.js, Redux Toolkit, RTK Query, createAsyncThunk, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, Spring Boot, Spring Data JPA, RESTful APIs
- **Databases & Caching:** MongoDB, MySQL, Redis, Firebase
- **Security & Architecture:** Spring Security, JWT, Role-Based Access Control, Microservices, API Gateway, Eureka Service Discovery, OpenFeign
- **Mobile Development:** React Native, Expo
- **Payments & Cloud:** Razorpay, Docker, Azure
- **Tools:** Git, GitHub, Postman, Cloudinary, Webpack, Babel

EDUCATION

MCA — Cambridge Institute of Technology, Bengaluru | 2023 | CGPA: 8.38

B.Sc (Computer Science) — C.B. College, Bhalki | 2021 | CGPA: 7.23

CERTIFICATIONS

- Full-Stack Web Development Certification — Geekster
- Web Development Internship — Bissbee (3 Months)
